CR-615

## 7 ports 10G/GBe switch for outdoor applications

CR615 is a 7-port Ethernet switch in a rugged enclosure designed for operation in the industrial temperature range, with support for optical SFP and SFP+ modules. The switch provides connection of 5 ports according to the standards 1000 / 100base-T and 2 ports according to the standards 10Gbase-R/1000base-X.

Key Features

- Sealed aluminum housing, protection class IP66

- Industrial temperature range from -40 to 70 ° C

- Two SFP+ slots for 10Gbase-R/1000base-X optical modules

- Five 100/1000 base-T ports

- Input power from the 220V network with possible drawdowns up to 100V

- Protection system against overheating, overload, short circuit, lightning discharges

- Web interface

- SNMP v1, v3 with authentication

Typical application scheme

The switch allows you to connect external devices in both the point-to-point topology and the chain. Thus, coverage of an almost unlimited territory is achieved.

Contents of delivery

- **Switch CR615**
- **Mounting bars**
- **Jumpers set**
- **User manual**
- **Warranty card**

Warranty

Free repair or replacement of the product within 2 years from the date of purchase
